CONTENTS.

	Page.
FARMERS' BULLETIN 301.—HOME-GROWN TEA.	
History of tea cultivation in the United States	7
Climate required by the tea plant	8
Selection of soil	8
Planting	8
Cultivation	11
Pruning	11
Plucking	12
Curing	12
How to prepare tea for drinking	15
Conclusions	15
FARMERS' BULLETIN 302.—SEA ISLAND COTTON.	
Introduction	7
Geographical distribution of Sea Island cotton in the United States	7
Ideal crop requirements	9
Possible extension of the Sea Island cotton-production area	10
Markets	11
Factors governing prices	12
Farm practices	14
Defects in market conditions	16
Cultivation of Sea Island cotton	16
Fertilizers for Sea Island cotton	20
Preparation of the land	23
Seed selection	26
Handling the crop	36
Diseases of Sea Island cotton	41
Insect enemies of Sea Island cotton	48
FARMERS' BULLETIN 303.—CORN-HARVESTING MACHINERY.	
Introduction	5
Corn cutting with knives	5
Machines for harvesting corn	7
Corn pickers	23
Huskers and shredders	26
Economy of corn-harvesting machinery	29
Conclusions	32
FARMERS' BULLETIN 304.—GROWING AND CURING HOPS.	
Introduction	7
Conditions essential to hop growing	7
Propagation	9
Planting and cultivating	10
Pruning	12
Trellises	13
Systems of training	16
Picking	17
Curing	19
Baling	33
Cost and yield of crop	36
Marketing	37
FARMERS' BULLETIN 305.—EXPERIMENT STATION WORK, XLII.	
Extension of rice culture	5
Growing seed potatoes under mulch	8
Manure as a summer mulch in forcing houses	9
Renewal of old orchards	11
Injury by Bordeaux mixture	12
Gluten flours and similar foods	13
Laxative properties of wheat bran	16
Emmer as a feeding stuff	17
Roots for farm animals	19
Cabbage as stock feed	22
Pasturing hogs	24
Cull beans as feed for hogs	25
Healthy poultry	28

MAR 8 - 1909

FARMERS' BULLETIN 306.—DODDER IN RELATION TO FARM SEEDS. Page.
Introduction 5
Dodder an important impurity in seeds 6
Sentiment regarding dodder in Europe 6
The character of dodder plants 7
The various kinds of dodder 9
Kinds of dodder seed infesting farm seed 9
Preference of the dodders for certain host plants 10
Kinds of seeds infested with dodder 11
Relation of dodder to the seed trade 11
A knowledge of dodder seed of value to the farmer 14
How the seed of dodder may be detected 15
Descriptions of dodder seeds 16
Buying seed 19
Cleaning seed 20
Detecting the dodder plants in the field 22
Destroying the plants 24
Summary 27

FARMERS' BULLETIN 307.—ROSELLE: ITS CULTURE AND USES.
Introduction 5
History and geographical distribution of the roselle 6
Botanical characters and relationships 7
Varieties 8
Cultivation and fertilization 10
Yield 12
Harvesting and marketing the calyces 12
Composition and uses of the fruit 13
Use of the plant for fiber 14
Breeding 14
Fungous diseases and insect enemies 16
Summary 16

FARMERS' BULLETIN 308.—GAME LAWS FOR 1907.
Introduction 3
Legislation of 1907 3
Close seasons 11
Shipment of game 25
Sale 34
Licenses for hunting and shipping game 39
Appendix.—Tables showing close seasons for game under county laws 49

FARMERS' BULLETIN 309.—EXPERIMENT STATION WORK, XLIII.
Ice for household use 5
Culture and varieties of root crops 7
Cowpeas and soy beans 15
Silage from frosted corn 19
Cooperation in marketing fruit and truck crops 20
Evaporation of eggs and other factors which affect incubation 24
Causes of death of young chicks 27
Substituting snow water for poultry 28
Eradication of cattle ticks 29
Bacteria in cream 31

FARMERS' BULLETIN 310.—A SUCCESSFUL ALABAMA DIVERSIFICATION FARM.
Introduction 5
Soil 6
Type of farming 6
Rotation 7
Arrangement of fields 8
Management of hogs 9
Operations for 1904 12
Receipts and expenditures for 1904 14
Operations for 1905 15
Receipts and expenditures for 1905 18
Operations for 1906 19
Receipts and expenditures for 1906 21
Future plans 23
Conclusions 23

FARMERS' BULLETIN 311.—SAND-CLAY AND BURNT-CLAY ROADS. Page.
Introduction 5
Physical properties of sand and clay 6
The mixing of sand and clay 7
Methods of constructing a sand-clay road 11
Cost of sand-clay construction 14
The use of sand-clay roads in this country 15
The construction of burnt-clay roads 16
Cost of burnt-clay construction 19

FARMERS' BULLETIN 312.—A SUCCESSFUL SOUTHERN HAY FARM.
Introduction 7
Location 7
Management 7
Cultural Methods 10
Field shed 12
Equipment of the farm and its cost 12
Expenses and receipts of the farm 12
Application to other farms of the system described 13

FARMERS' BULLETIN 313.—HARVESTING AND STORING CORN.
Introduction 7
The silo 7
Corn as a forage crop 8
Stripping the blades 8
Topping 8
Cutting and shocking compared with husking from the standing stalks 9
Time of cutting 10
Methods of cutting 10
Shocking 14
Jerking and storing the ears unhusked 17
Husking from the shock 17
Husking from standing stalks 19
Hauling to the crib 20
Use of corn-picking machines 21
Use of huskers and shredders 22
Storing the stover 22
Storing the ears 23
Convenient cribs 24
Protecting the crop from insects, mice, and rats 26
Methods of harvesting in relation to soil fertility 27
What constitutes a bushel of corn 28
Shrinkage 28

FARMERS' BULLETIN 314.—A METHOD OF BREEDING EARLY COTTON TO ESCAPE BOLL-WEEVIL DAMAGE.
Introduction 5
The distinguishing characters of plants of early and rapid fruiting cotton 7
The individual cotton plant and its progeny 10
The type recommended for early rapid fruiting and for productiveness to escape weevils 13
Seed selection for early, rapid fruiting, and for productiveness to escape weevils 17
Early and rapid fruiting measured by the yield of the selections in the boll-weevil district 21
Early-maturing defoliate cotton 21
Restraining rank vegetative growth by seed selection 23
Crossing or hybridizing 23
Treatment to insure a stand of early-planted cotton 24
Summary 27

FARMERS' BULLETIN 315.—PROGRESS IN LEGUME INOCULATION.
Introduction 7
The use of pure cultures of nitrogen-gathering bacteria 7
Applications for cultures 8
Reports of results 8
The effect of soil conditions upon legume bacteria 9
The effect of incubation upon the composition of the crop 10
Green manuring and inoculation 12
Confusion of nematode galls with nodules 12
When inoculation is desirable 13

	Page.
FARMERS' BULLETIN 315.—PROGRESS IN LEGUME INOCULATION—Cont'd.	
When inoculation is useless	13
Danger in inoculation by soil transfer	14
Results of cooperative field tests	14
Reports of inoculation experiments classed as successes	15
Reports of inoculation experiments classed as doubtful	18
Reports of inoculation experiments classed as failures	19
Summary	20
FARMERS' BULLETIN 316.—EXPERIMENT STATION WORK, XLIV.	
Distributing manure and fertilizers	5
Winterkilling of peach buds	6
Effect of fertilizers on the color of apples	8
Ringing herbaceous plants	9
Potato scab	11
Effects of escaping illuminating gas on trees	12
The tuna or prickly pear as a food for man	14
Cooking cereal foods	17
Some experiments in silage making	19
Recent horse-feeding tests	22
Supplements to corn in hog feeding	25
Tankage for hogs following cattle	28
Hoppers for poultry feeding	30
FARMERS' BULLETIN 317.—EXPERIMENT STATION WORK, XLV.	
Improving the convenience and comfort of the farm home	5
Lining of ditches and reservoirs to prevent seepage losses	10
Cement pipe for small irrigating systems and other purposes	12
Pollination of forced tomatoes	15
Increasing the productiveness of corn	17
Shrinkage of corn in cribs	22
Feeding grain to milch cows at pasture	26
Practical use of starters in ripening cream	27
Water pans for poultry	28
Catching hook for poultry	31
FARMERS' BULLETIN 318.—COWPEAS.	
Introduction	7
Cowpeas for hay	8
Cowpeas in mixtures	11
Cowpeas for pasture	13
Feeding value of cowpeas	14
Growing cowpeas for seed	15
Cowpeas for soil improvement	22
Varieties of cowpeas	24
Summary	27
FARMERS' BULLETIN 319.—DEMONSTRATION WORK IN COOPERATION WITH SOUTHERN FARMERS.	
Introduction	5
The two branches of the demonstration work	6
Plan of organization	6
Scope of the demonstrations	7
The instructions	8
How farmers are influenced to adopt better methods	9
The cultural system for producing cotton under boll-weevil conditions	10
Demonstration work on various farm crops	15
Practical results accomplished	17
Conclusion	22
FARMERS' BULLETIN 320.—EXPERIMENT STATION WORK, XLVI.	
Fish fertilizer	5
Reclamation of salt marshes	9
Bermuda hay	12
Protein content of forage crops	13
Quality in wheat	18
Does it pay to spray potatoes?	22
Use of anesthetics in forcing plants	23
Fattening cattle for market	25
Cotton-seed meal and corn silage for dairy cows	28
Carbonated milk	29
Preservation of fence posts	30

FARMERS' BULLETIN 321.—THE USE OF THE SPLIT-LOG DRAG ON EARTH ROADS. Page.
Introduction 5
The construction of a split-log drag 5
How to use a drag 9
When to use a drag 10
Use of a drag on rocky or gravelly roads 11
Cost data 11
Construction and use of a ditch cleaner 13
Conclusion 14

FARMERS' BULLETIN 322.—MILO AS A DRY-LAND GRAIN CROP.
What milo is 5
Where to grow milo 10
How to grow milo 12
How to use milo 20
Prussic acid poisoning 21
Insect enemies and fungous diseases 21
Summary 22

FARMERS' BULLETIN 323.—CLOVER FARMING ON THE SANDY JACK-PINE LANDS OF THE NORTH.
Introduction 5
Extent and character of the jack-pine lands 5
Attractions of the jack-pine lands 6
Reasons for failures on the jack-pine lands 7
Facts every settler should know 7
Clearing and breaking jack-pine lands 8
Depth to plow jack-pine lands 9
Preparation of the seed bed 10
Clover the key to successful farming on jack-pine lands 10
How to secure a stand of clover 11
Clover inoculation 14
Effect of winds on the clover catch 15
Wind-breaks for sandy lands 16
Rough fields desirable on sandy lands 17
Handling clover for seed 18
Clover straw 21
Clover following clover 21
Manures and fertilizers 22
Summary and suggestions 23

FARMERS' BULLETIN 324.—SWEET POTATOES.
Introduction 3
Areas adapted to sweet potato culture 4
Climatic conditions required 4
Character of soil adapted to sweet potatoes 5
Fertilizers for sweet potatoes 6
Propagation of plants 9
Preparation of land for sweet potatoes 16
Setting the plants 18
Cultivation of sweet potatoes 22
Diseases 24
Insects 26
Harvesting sweet potatoes 26
Storage of sweet potatoes 29
Temperature and ventilation of storage houses 33
Loss from shrinkage while in storage 34
Marketing during winter months 34
Varieties of sweet potatoes 35
Cost of production and returns 38
Uses of sweet potatoes 38

FARMERS' BULLETIN 325.—SMALL FARMS IN THE CORN BELT.
Introduction 5
A forty-acre farm in Saunders County, Nebr 7
A forty-acre farm in Adams County, Nebr 17
A twenty-acre farm in Pawnee County, Nebr 21
General conclusions 27
